- i. REPORT – FIRST STREET PARKING DECK PRECAST CONCRETE MATERIALS The following report of the Public Works and Buildings Committee was presented:

September 28, 2009

TO: Mayor DiCianni and Members of the City Council  
RE: First Street Parking Deck Precast Concrete Materials

On Monday, September 28, 2009 the Public Works and Buildings Committee met to review bids received for the First Street Parking Deck Precast Concrete Materials.

On September 8, 2009 the Elmhurst City Council approved the construction of a parking deck located at 175 West First Street. As part of that construction, various packages will be put out for public bid. Those bids will be received, reviewed and presented to the Public Works and Buildings Committee as well as the Elmhurst City Council for approval. Currently the bids that have been received are for the precast concrete materials to construct the deck.

The low bidder was Illini Precast of Westchester, Illinois with a total bid of \$1,984,000. Illini Precast has produced materials for structures located in Woodridge, Wood Dale and Franklin Park municipalities. Reference checks indicate that the work was done in a satisfactory manner. Attached is the tabulation of the bids received..

Monies for this work have been approved in the FY 2009/2010 Budget, in account number 530-0088-503-80-19 in the amount of \$7,000,000.

It is, therefore, the recommendation of the Public Works and Buildings Committee that the bid for precast materials from Illini Precast in the amount of \$1,984,000 be accepted and that the City Attorney be authorized to prepare an appropriate resolution and ordinance.

- j. REPORT – SOUTH ELEVATED TANK INTERIOR WET PAINTING & EXTERIOR PRESSURE WASHING The following report of the Public Works and Buildings Committee was presented for passage.

September 28, 2009

To: Mayor DiCianni and Members of the City Council  
Re: South Elevated Tank Interior Wet Painting & Exterior Pressure Washing

The Public Works and Buildings Committee met on September 28, 2009 to discuss bids for the painting of the interior wet portion of the South elevated water tank and pressure washing of the exterior of the tank. The interior was last painted in 1992. Since that time the paint coating has deteriorated and needs replacement.

The interior wet portion of the tank is subject to corrosion due to the wet environment also the tank has structural beams and seams that are showing corrosion. In addition the paint has worn off due to some freezing that occurs annually. The paint that is specified is a low volatile emission product that is approved for the interior of water storage tanks by the American Water Works Association and the US EPA. The proposed work will include sand blasting, removal of the existing paint, sealing of any openings between the beams and the surface of the tank wall and disinfection of the tank after the work is complete.

In addition the exterior of the tank will be pressure washed to remove soot and mold that has attached itself to the surface at and below the spheroid portion of the tank.

This maintenance work will have minimal impacts to the nearby residences.

Bids were opened on September 15, 2009 and proposals were received from nine area contractors. The bids were;

<u>Contractor</u>	<u>Total Price</u>
Tecorp Joliet, Illinois	\$67,800
L.C. United Sterling Hts., Michigan	\$69,600
Am-Coat Homer Glen, Illinois	\$81,380
Maxcor Lockport, Illinois	\$82,600
Jetco, Ltd	\$96,480

Prospect Hts. Illinois	
Bullseye Construction Lombard, Illinois	\$113,000
G K Painting Lincoln Park, Michigan	\$138,000
Classic Protective Coatings Menomonee, Wisconsin	\$182,688
Pittsburgh Tank & Tower Henderson, Kentucky	\$193,200

Staff has checked the references provided by Tecorp Inc. and all references report acceptable work.

It is the recommendation of the Public Works and Buildings Committee that the low bid from Tecorp Inc. of Joliet, Illinois be accepted for \$67,800.

Funds for this project are budgeted in the capitol expenditures budget, 510-6057-502.80-20. The 2009/20010 projected budget for this project is \$80,000.

- k. REPORT – DISPOSAL OF CITY EQUIPMENT The following report of the Public Works and Buildings Committee was presented for passage:

September 28, 2009

TO: Mayor DiCianni and Members of the City Council

RE: Disposal of City Equipment

The Public Works and Buildings Committee met on Monday, September 28, 2009, to discuss the disposal of several pieces of equipment described on the inventory sheet (Exhibit A) that is included in the attached ordinance.

It has been recommended by staff that this equipment be disposed of at the DuPage Mayors and Manager's Auction on November 7, 2009. This auction has provided the City a favorable means of disposition of City equipment in the past. There is, however, a 15% service charge from DuPage Mayors and Managers for auctioning this equipment. In addition, a City representative must assist the conference during the auction day.

It is, therefore, the recommendation of the Public Works and Buildings Committee that these pieces of equipment be disposed of at the DuPage Mayors and Managers Conference auction on November 7, 2009 and that the City Council approve an ordinance authorizing the disposal of this equipment.

1. REPORT – YORK HIGH SCHOOL SPEED LIMIT SIGN RELOCATION The following report of the Public Affairs and Safety Committee was presented:

September 28, 2009

To: Mayor DiCianni and Members of the City Council  
Re: York High School Speed Limit Sign Relocation

The Public Affairs and Safety Committee met on September 28, 2009 to consider the recommendations from Brent Coulter of Coulter Transportation, along with input from the Elmhurst Police Department to address the resident concerns for speeding vehicles, traffic congestion and pedestrian safety on Elm Park Avenue.

Among the recommendations was the relocation of the westbound “20 mph School Speed Zone” signage on Elm Park Avenue one block west for improved visibility. The current sign location may be difficult to notice due to driver attention directed to an all-way stop sign and nearby tree foliage.

It is, therefore, the recommendation of the Public Affairs and Safety Committee that the appropriate ordinance be drafted and adopted by the City Council for the placement of the “20 mph School Speed Zone” signage on Elm Park Avenue to the rear of York High School from Grace to Alma Avenues.

- m. REPORT – BENSENVILLE FIRE PROTECTION DISTRICT #1 EXTENSION OF SERVICE The following report of the Public Affairs and Safety Committee was presented:

September 28, 2009

To: Mayor DiCianni and Members of the City Council  
RE: Bensenville Fire Protection District #1 - Extension of Service

On September 14, 2009 and again on September 28, 2009, the Public Affairs and Safety Committee met to discuss the status of the intergovernmental agreement with the Bensenville Fire Protection District #1 (BFPD). Per council action in the fall of 2008, the BFPD #1 was given a one-year extension to develop a plan to provide funding to continue fire protection services through the City of Elmhurst.

At the September 8, 2008 Public Affairs and Safety Committee meeting, a number of residents of BFPD #1 stated that they preferred to have Elmhurst as their first responding fire department and that they would work with the Fire Protection Board and their neighbors to find a way to pay the agreement calculated annual service fee.

The City of Elmhurst sent out a survey with three options:

1. Annexation into the City of Elmhurst
2. Develop a Special Service Area
3. Terminate Service

The vast majority of responses selected termination of service with the stipulation that they develop their own fire protection district and levy a tax of .40%. Research was done on the possibility of implementing a new district and increasing the tax levy to .40%. This process would be time consuming and difficult. After a meeting with the District Board, the Board offered to place a referendum on the February 2010 ballot to increase the tax levy to .40% which would allow the district to pay its fair share for fire protection services.

The Committee agreed to a 6-month extension of fire protection services to allow a February 2010 referendum. If the referendum does not pass, BFPD #1 would be offered a 6-month extension option to allow BFPD to arrange fire protection for the area.

It is, therefore, the recommendation of the Public Affairs and Safety Committee that the City Council approve a 6-month extension, with a 6-month option for BFPD #1, allowing a February 2010 referendum. If the referendum does not pass, a 6-month option (not to exceed October 31, 2010) would be allowed to BFPD #1 to make arrangements for fire protection for the area.
